

CAREIUM ABBY EASY SET-UP GUIDE

This guide is for customers and family members.

Follow the simple steps below to set up your Careium Abby.

WHAT'S IN THE BOX

- Ther Abby mobile alarm device
- Charging cradle
- Power cable and plug
- Lanyard
- Quick information card

If anything is missing, please contact us

BEFORE YOU START

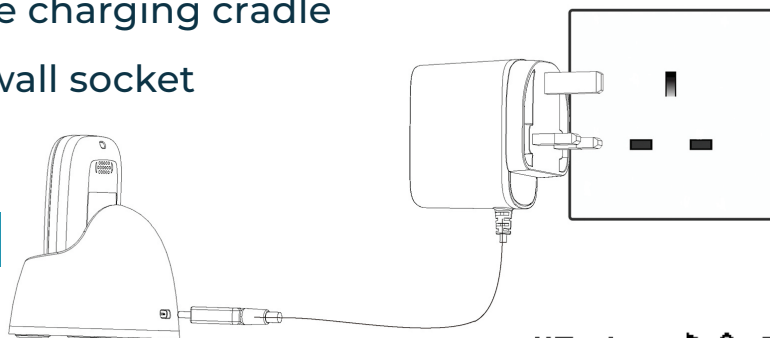

- ✓ Abby is a **mobile alarm** that works **inside and outside the home**
- ✓ Choose a place to plug in the **charging cradle** (usually the main living area)
- ✓ The cradle should be **near a power socket**
- ✓ It uses the **mobile network**
– no phone line or internet is needed

STEP 1: PLUG IN THE CHARGING CRADLE

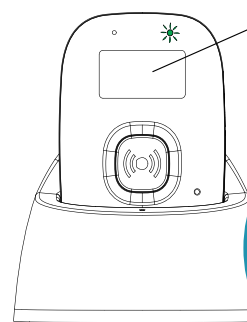

- Plug the power cable into the charging cradle
- Plug the other end into the wall socket
- Switch the power on

The cradle is now ready to use

STEP 2: PLACE THE DEVICE IN THE CHARGING CRADLE

- Place the device into the charging cradle
- It will switch on automatically

4G .lll Bluetooth Home Battery

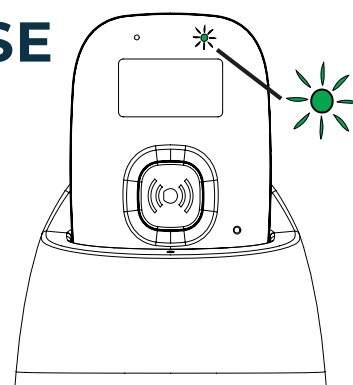

A light will show to confirm it is charging

STEP 3: CHARGE BEFORE FIRST USE

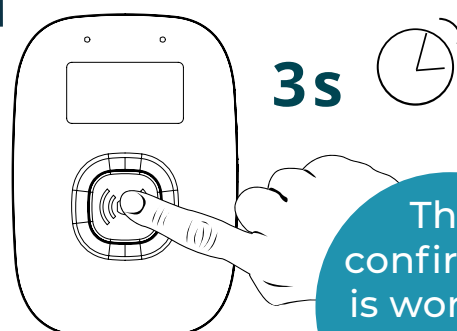

- Leave the device in the cradle to fully charge
- This can take up to **5 hours** the first time

A solid green light means it is fully charged

STEP 4: TEST YOUR ALARM

- Take the device out of the cradle
- Press and hold the **help button** for **3 seconds** (or press 3 times quickly)
- Wait for the operator to speak to you
- Tell them this is a **test call**

This confirms it is working and ready to use
